Pinex® Anchor Piles

Product Technical Statement

Sustainability	<p>Pinex Anchor Piles are sawn from plantation pine grown in New Zealand. It is grown on tree farms which are tended and harvested to provide wood for Pinex and other applications. The crop is managed on a sustainable basis to yield millable trees. New Zealand plantations are managed in compliance with the New Zealand Forest Accord, a voluntary agreement signed in 1991 between New Zealand forest managers and environmental nongovernment organisations.</p> <p>Pinex Anchor Piles are manufactured at our Nelson, Kawerau and Whangarei Sawmills. Pinex is available Forest Stewardship Council® (FSC®) (SCS-COC-001317, SCS-COC-00403 & SCS-COC-001321) certified upon request.</p>
Installation Requirements	<p>Pinex Anchor Piles are to be installed in accordance with the specifications and installation details described in NZS 3604, and good building practice.</p>
Service Life	<p>Pinex Anchor Piles will continue to satisfy the relevant performance requirements of the NZBC for 50 years provided that all of the requirements set out in this Product Technical Statement are satisfied, and Pinex Anchor Piles are installed in accordance with the specifications and installation details described in NZS 3604.</p>
Maintenance Requirements	<p>Pinex Anchor Piles will not normally require maintenance.</p>
